DISCLAIMER

This whitepaper does not constitute an offer or invitation to buy BRK token, purchase of shares, securities, or any of the assets of this project.

This technical report describes the business objectives of the Project.

It has not been reviewed, verified, approved, or authorized by any regulator or competent authority.

This whitepaper has been published by the independent developers of this project on NOVEMBER 14, 2021.

The purpose of this whitepaper is to provide information to buyers, partners, and others, with information about the project, to allow potential buyers to make their own decision on whether to proceed with the purchase of BRAZKUB (BRK).

The content and information provided below in this document are accurate to the best of your knowledge and belief, and there are no other facts the omission of which could be misleading in any statement in this whitepaper. It may not be complete and does not imply any element of a contractual relationship.

This document does not constitute the provision of professional or investment advisory services.

No legal liability is guaranteed or accepted arising out of or related to the accuracy, reliability, or completeness of any material contained in this document.

It is the responsibility of potential buyers of BRAZKUB (BRK) tokens to carry out their own due diligence related to their interests

1. EXECUTIVE SUMMARY

VISSION:

"Global adoption of BRAZKUB NETWORK(BRK) and the Eco-System"

We truly believe that decentralization is the key to empowering people around the world to better understand their rights to control their own money, data, identity, and new ways of doing business, using technology and that we are helping the world move forward. in this direction, accelerating the transition towards the adoption of our ecosystem.

Likewise, the awareness and education of society about people with disabilities, helping to create and improve their quality of life, we can make good use of our cryptographic tool, being useful, not only to generate the use of it, but also the capacity itself to change the lives of hundreds of people, providing resources for the construction of research centers, schools, recreational centers for people with disabilities, among many other benefits.

Helping people globally to:

- **Use BRK tokens:** ability to spend, transfer, make payments and access your funds anytime, anywhere, through different exchanges.
- **Use BRAZKUB SWAP:** Mini-DEX with unique characteristics in the decentralized finance market (DEFI). It combines adding liquidity with the 3-level referral system, apart from the rewards in the BRK token, a lottery that works as a bridge Between adding liquidity to the BRK and the burning of different crypto-assets that act as collateral, and 10% is allocated to help children with special characteristics (Autism), it also adds a system of rewards for performing different tasks, advertising the token BRK, and finally a Stake system, where can earn a high annualized interest.
- **To be part of our Social Project:** Help People with Disabilities with Autism, through the [**BRAZKUB AUTISM FOUNDATION**](#), for to build schools, sports fields and promote education about this type of disability. 20% of all BRAZKUB Tokens (BRK) are allocated (4,2 M) and 10% of all Lottery winnings will be used in each daily drawing, for these purposes.

MISSION

"Provide as much liquidity as possible and help people with autism spectrum."

We are working on seeking to add value to our token by listing it on the top 20 exchanges globally, which will provide liquidity.

In addition, we believe that the way our DEX is managed, taking advantage of the leverage with tokens and cryptocurrencies, which have trillions of tokens, and helping the induced and mandatory burning, we can add abundant liquidity, which is the main objective of each project.

We also work so that people who acquire the BRK are aware that they are not simply owners of something that has no value or that has a lot of value in the market, (although in practice it may seem like it), through the process of providing liquidity. and value to it, but they are getting involved, in helping people with disabilities (AUTISM), so that they have the necessary resources to cover their medical, educational, and basic subsistence resources, all over the world, either through the BRAZKUB AUTISM FOUNDATION, or third parties, who wish to support the project.

Resources will also be allocated for scientific studies of Autism, therefore, buying, selling, or holding Token BRAZKUB NETWORK (BRK) goes beyond a simple value in an exchange, it transcends borders, cultures, and values

2. INTRODUCTION

This is a unique time in the financial services industry: new technology like blockchain and cryptocurrencies are delivering huge opportunities and bringing disruptive changes to the financial world.

Our ecosystem was created with the purpose of maximizing the use of our tokens and accelerating global adoption, as well as helping others with resources obtained from these purposes.

Also add value, by allocating a percentage of all the profits of the ecosystem, in a weighty social reason: Helping people with disabilities, both physical, motor, or mental, especially those who have the Autism Spectrum, using blockchain technology.

There are 7 main components of the BRAZKUB ecosystem:

- 1. BRAZKUB SWAP.
- 2. BRAZKUB BURN.
- 3. BRAZKUB LOTTO.
- 4. BRAZKUB CLICK PAY.
- 5- BRAZKUB STAKE.
- 6-BRAZKUB PRE-SALE
- 7. BRAZKUB AUTISM FOUNDATION.

3. BRAZKUB ECOSYSTEM

3.1-BRAZKUB SWAP:

System created to add liquidity with other pairs that are well positioned in the global market, among the main cryptocurrencies. 3 referral levels are paid to help promote the system.

By adding liquidity to the system, they receive BRK tokens that they can exchange or use for rewards and prizes.

100% is distributed as follows:

1-50% to add liquidity, with a withdrawal commission of 0.3%, which is distributed among all participants who have put liquidity.

2-20% reference in 3 levels:

1-10%

2-5%

3-5%.

3-Pool Global, spill of 20%.

The Global spill occurs when and only, liquidity is added. 20% of the total added in each pair that receives liquidity (**BNB / BRK**) is distributed among the entire global network. This includes those who add liquidity as well as those who participate without adding liquidity.

4- Burn

10% is destined for the burning of both pairs. 7% is used for the burning and 3% of commission to whoever carries it out, serving the community as a supervisory entity.

3.2-BRAZKUB BURN

It is a leverage system, between different pairs, which act as a volume elimination agent, due to the high amount of issued coins, and the BRK.

All Pairs have the following characteristics:

1-High number of coins issued,

2- + 1 million Open Wallets.

3-Low prices.

On the positive side, the aggregate Liquidity in each pool is reduced by 7%, and the community acts as a validating entity, generating commissions of 3%.

This mandatory burning would have a positive effect in the short, medium, and long term on the value of each pair, the more liquidity, the more% of the burn and + the possibility of an increase in value.

3.3. BRAZKUB LOTTO.

It is a system of rewards, which also include 3 levels of referrals, for inviting people to participate.

Each ticket has a cost of 5 USD / BRK and is distributed as follows:

2 USD / BRK is distributed to 3 levels of referrals:

1 Level-1 USD / BRK

2 Level-0.25 USD / BRK

3 Level-0.25 USD / BRK.

***0.50 USD / BRK to pay click for advertising.**

3 USD / BRK is distributed for the Draw as follows:

30% for Prizes (one winning number in exact order (1), receives 3% among all winners, two winning numbers in exact order (12), receives 7% among all winners and 3 winning numbers in exact order (123), receive 20% among all winners, if there are no winners in each draw, the jackpot of each will accumulate, until there is (are) a winner (s)).

40% to add liquidity to the exchange of Brazkub (BRK) for Binance (BNB). This liquidity allows each BRK won in each draw to be exchanged for a higher exchange currency such as BNB.

10% for development: This allows improvements to the system, as well as the possibility of Listing the BRK on a high-ranking exchange.

10% Burn; 7% goes to burning and 3% to the validator.

10% Foundation: 10% of each draw goes to the **BRAZKUB AUTISM Foundation.**

*The reward payment system will be 70% in **BNB** and 30% in **BRK**, until the BRK has a market price of \$ 500,000 per day or higher. Once this goal is reached, all payments will be in BRK, as it has liquidity. All tickets can be purchased 100% in BNB or 70% in BNB / 30% in BRK

3.4. **BRAZKUB CLICK PAY.**

Rewards system for clicking on different types of advertising on social networks.

It pays **3 levels of referrals** for the sale of per click advertising packages.

1 Level-10%

2 Level -5%

3 Level -5%.

For advertising on social networks, the system distributes **70%** of all purchases of the advertising packages.

The remaining **10% is used for development**.

*All purchases of advertising packages are purchased in BRAZKUB, and earnings from Click Payments for Advertising are paid in BNB (70%) & 30% in BRK. until the BRK has a market price of \$ 500,000 per day or higher. Once this goal is reached, all payments will be in BRK, as it has liquidity.

3.5-BRAZKUB STAKE.

High Yield System in BRAZKUB (BRK).

3 referral levels are paid to help promote the system.

1-10%

2-5%

3-5%.

Includes 3 packages:

Package 1- \$ 250.00 USD / BRK

Package 2- \$ 500.00 USD / BRK

Package 3- \$ 1000.00 USD / BRK.

The reward payment system will be 70% in **BNB** and 30% in **BRK**, until the BRK has a market price of \$ 500,000 per day or higher. Once this goal is reached, all payments will be in BRK, as it has liquidity. All purchases can be purchased at **70% BRK/30% BNB**.

Each Stake package, gives an annual yield of 365% (1% daily), being able to change in the BRAZKUB SWAP or in the different exchanges where it is exchanged (PANCAKESWAP,)

Upon reaching one million BRK in Stake, the Annual% Yield is halved:

STAKE	1-999,999.99 BRK	1M-1,999,999.99 BRK (50%)	2M--2,999,999.99 BRK (25%)	3M -3,999,999.99 BRK (12.5%)	+4M BRK (0,06250%)
%	365% APR	182.5% APR	91,25% APR	45,625%APR	22,8125%APR

3.6-BRAZKUB PRE-SALE

It is the BRAZKUB (BRK) Pre-Sales system.

It is a reward system for buying BRK every 90 days, where the next purchase always doubles the previous one, for a period of 12 months.

Example: You start with \$ 25, after 90 days your new purchase is \$ 50 USD / BRK, and you need to renew your previous purchase of \$ 25 USD / BRK, until completing the 365 days (5 purchases). Once your cycle is complete, you do not need to renew each purchased cycle to receive profit from your organization.

For each purchase, it is distributed 10 levels deep in the equipment, as follows:

Paying 10 levels of reference or spill, distributing 50% of the cost of each Pre-Sale package. (5% x 10 levels).

To receive the 10-level spill, you must purchase a \$ 25 USD / BRK Pre-Sale package.

In case of spill commissions, these will remain in the virtual office, until a Pre-Sale package is activated.

30% of each Pre-Sale package is to **add liquidity** to the BRAZKUB (BRK).

20% is for **development**.

The reward payment system will be 70% in **BNB** and 30% in **BRK**, until the BRK has a market price of \$ 500,000 per day or higher. Once this goal is reached, all payments will be in BRK, as it has liquidity. All purchases can be purchased at 70% BRK / 30% BNB.

As indicated in the table, the system distributes **BRK token**, each time a level is **purchased, or is renewed**, and when **a member purchases or renews their levels**, which can be used within the **BRAZKUB Eco-System** or converted to balance **BNB**:

Level	1-999,999.99 BRK	1M-1,999,999.99 BRK (50%)	2M--2,999,999.99 BRK (25%)	3M -3,999,999.99 BRK (12.5%)	+4M BRK (0,06250%)
1-\$25	1,25 BRK	0.625 BRK	0,3125 BRK	0,15625 BRK	0,078125 BRK
2-\$50(90 D)	2,50 BRK	1,25 BRK	0,625 BRK	0,3125 BRK	0,15625 BRK
3-\$100(180 D)	5,0 BRK	2,50 BRK	1,25 BRK	0,625 BRK	0,3125 BRK
4-\$200(270D)	10 BRK	5 BRK	2,50 BRK	1,25 BRK	0,625 BRK
5-\$400(365 D)	20 BRK	10 BRK	5 BRK	2,5 BRK	1,25 BRK

3.7. BRAZKUB AUTISM FOUNDATION.

Foundation to help children with the autism spectrum.

Objectives to be achieved.

- 1-Create the BRAZKUB AUTISM LAB for investigative purposes with blockchain technology.*
- 2-Help with the funds of the BRAZKUB Ecosystem, destined to the foundation plus 20% of All BRK Token, to build globally, schools and therapeutic development centers for children with autism spectrum.*
- 3-Support family members with children diagnosed with autism spectrum, in an economic and educational way.*
- 4-Associate with other foundations and entities to support research development and with financial resources for these purposes.*

4. BRAZKUB TOKEN INFORMATION.

NAME:

BRAZKUB NETWORK

TOKEN STANDAR:

BINANCE SMART CHAIN

TOTAL SUPPLY:

21,000,000 BRK

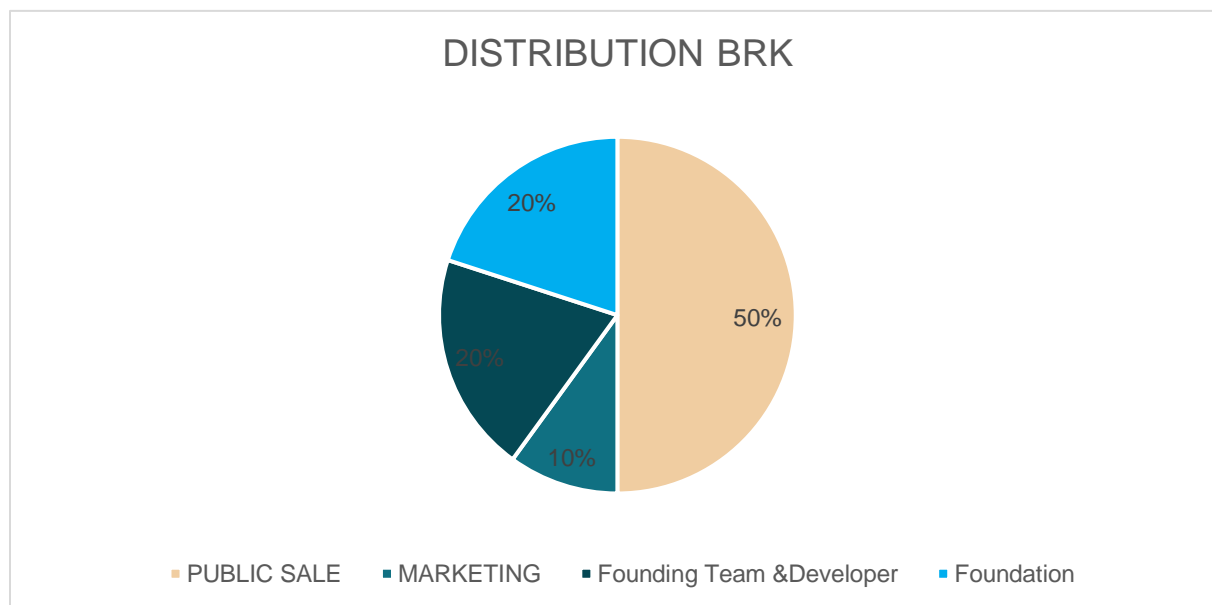

ISSUE ENTITIES:

DEVELOPED BY ENTREPRENEURS

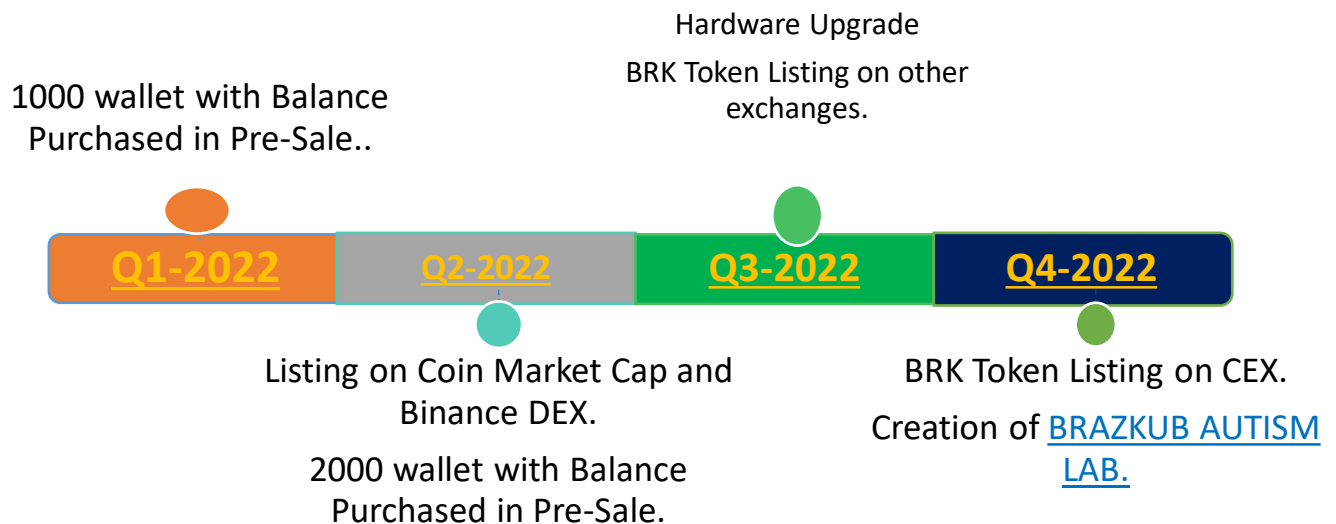

BRK CONTRACT ADDRESS:

[0x4c5873019b9c7794951cbc6f5414b1e2810c6da1](#)

5. TOKENOMICS.

6. ROAPMAP&FUTURE PROJECTS.

FUTURE PROJECTS:

- **BREX Chain**
- **BRAZKUB AUTISM FOUNDATION.**
- **NFT (Non-Fungible Token)**

Major Target Listing 2022-2023

- **BINANCE**
- **HUOBI GLOBAL**
- **BINANCE US**
- **Crypto.com Exchange.**
- **KRAKEN**
